PROJECTS

MERN Blog App

The MERN Blog App project is a full-stack web application.It enables users to create, read, update, and delete blog posts.The project showcases how to implement user authentication, CRUD operations, and a dynamic front-end using React, all backed by a MongoDB database and a Node.js/Express server.

MERN Expenses Tracker App

The MERN Expenses Tracker App is a comprehensive financial management tool . It empowers users to efficiently track and manage their expenses. With a user-friendly web interface, users can add, categorize, and monitor their spending, set budgets, and generate reports to gain insights into their financial habits.

Movie description Website - React.js

The Movie Website App is a dynamic React frontend application designed for movie enthusiasts. It offers a user-friendly interface for users to browse, search, and access information about a vast collection of movies. This app utilizes React's capabilities of context Api, State management and search function

E-commerce Front-end React app

The E-commerce React Frontend App is a dynamic and user-friendly web application The app includes features like product filtering, Search bar, shopping cart management.Built with React, it offers a responsive and intuitive design.

My Portfolio Website

A Portfolio Website created with React.js is a dynamic and visually captivating platform to display your talents and achievements. This website goes beyond a traditional paper resume, providing an interactive and engaging space for you to showcase your work, skills, and personality

CO-CURRICULAR

CSA-Core Team Head

As the Core Team Head in the Computer Science Association of my college, I was entrusted with the responsibility of leading a dedicated group of students to organize and execute various technical and educational events.

CSA-Core Team Head

As the Head Content Editor of the Newsletter and Magazine Club at my college, I played a pivotal role in shaping and curating content for our publications. During my tenure, I led a team of talented writers, designers, and editors to create engaging and informative content that resonated with our college community.
